GSE Teacher Toolkit

The screenshot displays the GSE Teacher Toolkit interface. At the top left, there is a banner for the British Council ELTons 2020 18th Year Finalist award. The main heading is "GSE Teacher Toolkit", followed by a descriptive paragraph: "Let the Global Scale of English (GSE) save you time and improve the quality and relevance of your English classes. The GSE Teacher Toolkit makes it quick and easy to find learning objectives, grammar, vocabulary and coursebook recommendations all mapped to the GSE and CEFR." To the right of this text is a video player with a "Play Overview" button. Below the header, there is a "Choose category" section with four buttons: "Learning Objectives" (dark blue), "Grammar" (teal), "Vocabulary" (teal), and "Text Analyzer" (teal). The "Learning Objectives" button is currently selected. Underneath, there are two dropdown menus: "Who are you teaching?" with a "Choose Learner" option, and "Choose Skill" with a "Choose Skill" option. To the right of these is a GSE/CEFR scale from 10 to 90, with markers for <A1, A1, A2, A2+, B1, B1+, B2, B2+, C1, and C2. A search bar with the placeholder "Filter search results with a word or phrase..." is located below the scale. A "Show results" button is positioned at the bottom right of the interface.

Power Skills

Plc.Pearson.com/en-GB/insights/pearson-skills-outlokk-powerskills

Key findings for Canada - 2022

2022

The top 10 most in-demand skills currently are:

- 01 Communication Skills
- 02 Customer Service
- 03 Collaboration
- 04 Leadership
- 05 Problem Solving
- 06 Attention to Detail
- 07 Organisational Skills
- 08 Teamwork
- 09 Self-sufficiency
- 10 Operational Reporting

9/10 are human skills

The top three 'trending skills' (rising most quickly in demand) are:

- Operational Reporting
- Verbal Communication Skills
- Microsoft Excel

Key findings for Canada - 2026

Looking ahead

The top 10 skills needing most improvement to meet the demands of the country's economy by 2026 are:

- 01 Personal Learning & Mastery
- 02 Collaboration
- 03 Achievement Focus
- 04 Customer Focus
- 05 Agility
- 06 People Management
- 07 Communication
- 08 Cultural & Social Intelligence
- 09 Emotional Intelligence
- 10 Direction & Purpose

Of the top 10 power skills likely to need most development to meet 2026 demands:

2/10 relate to leadership skills

6/10 relate to relationship building skills

Teaching Future Skills: what the research says

- Future skills need to be **explicitly taught** – you cannot assume they will simply be “picked up” along the way
- **Start young!** These skills take many years to master
- Future skills are taught most effectively **within the context of teaching other subjects**
- Timely **feedback** on performance is one of the most effective ways to teach future skills
- **Raise the profile** of these skills – tell students which of the skills they are practising
- Set up tasks which require students to **use Future Skills**
 - Group tasks (Collaboration)
 - Researching a topic (Critical Thinking)
 - Sharing their own ideas (Communication)
 - Suggestion solutions to a problem (Creativity)

Teaching Future Skills: alongside English

- **Create guidelines** on “what good looks like” - and share this with students
- Get students to **self-evaluate/peer-evaluate** against success criteria for these skills – pointing out things that were good and things that could be improved
- **Provide students with the language** they need eg. to collaborate:
 - *So what you're saying is.....* (Active Listening: Checking understanding)
 - *I'd like to hear what Sue has to say...* (Inviting others to give their opinion)
 - *I'm not sure I entirely agree with you there...* (polite disagreement)
 - *Can I just make a quick point...* (polite interruption)

Conflict resolution

CONVERSATION MODEL | Read and listen

A: I really have to get in shape! Any suggestions?

B: What kind of exercise appeals to you?

A: Let me think . . . Well, I like outdoor activities.

B: You could play tennis or basketball. Those are pretty strenuous.

A: To tell you the truth, I prefer individual sports.

B: OK! Well, you should go bike riding or running.

A: You can do those every day.

B: They're a great workout! Why didn't I think of

Social language
Use "To tell you the truth" to soften a statement of disagreement.

Social responsibility

Unit 1 | Lesson B

READING

4 A Work in groups of three. Student A: Read text A on this page. Student B: Read text B on page 146. Student C: Read text C on page 148.

B Complete the table with information from your text.

	Text A	Text B	Text C
Who is the text about? Where?			
What is their job? What do they do for other people?			
Why do they do it?			
Do they run an organisation?			
What do they say about what they do?			

5 A Use your notes to tell the other students in your group about your text. Complete the table for the other two texts.

B In your groups, discuss the questions.

- 1 What do you think the three people enjoy about what they do?
- 2 Which person do you admire the most? Why?

C Find words or phrases in bold in your text to match the meanings (1–5).

- 1 a list showing how much you have to pay
- 2 behaviour that shows you care for and want to help others
- 3 the money that someone earns or receives regularly
- 4 to become popular
- 5 to do something so you can be certain of the result

D Work in your groups. Read the text in the Skills box and discuss the questions.

FUTURE SKILLS
Social responsibility

The media often describes people like Lou, Zeal and James as good people or heroes. Define a good person. Are the people in the texts good people? Which famous people do you think are good? Why?

A

Food is Free

Lou Ridsdale loves gardening. In a small space next to her home in Ballarat, Australia, she grows vegetables. One day, she heard about a man in Los Angeles who grew food to share with the community. He belonged to an organisation called Food is Free. Ridsdale saw that she had more vegetables than she needed and decided to give them away, like the man in Los Angeles.

In Ballarat, just 6.4 percent of people eat the recommended amount of vegetables. A lot of people in the city have low incomes and the city has many problems connected to what people eat: lack of affordable food and lack

FUTURE SKILLS

Social responsibility

The media often describes people like Lou, Zeal and James as good people or heroes. Define a good person. Are the people in the texts good people? Which famous people do you think are good? Why?

Pearson

CSE

Future Skills for Adult Learners

FUTURE SKILLS

Leadership

When you make a decision in a group or team it is important to listen to different ideas and opinions before you decide what to do.

Talk to a partner about a time when you listened to other people before you made a decision. How do their ideas and opinions help you?

FUTURE SKILLS

Critical thinking

When you read news stories, it is important to think about whether they are true or fake. Before you share a news story, you should:

- look at the source and author of the article to see if you can trust them.
- read the whole article, not only the headline.
- check if the same news story is in other news sites that you trust
- check some of the facts in the article, e.g. the names of experts.

Do you use any of these strategies when you access the news? Which ones? What else do you do?

FUTURE SKILLS

Communication

Communication is about more than what you say. You can communicate feelings such as enthusiasm through your intonation, facial expression and gestures.

What kind of intonation, facial expression and gestures do you think show that you are enthusiastic?

FUTURE SKILLS

Creativity

Creativity can be useful for language learning. Visualising new vocabulary, drawing pictures and creating interesting or unusual sentences or stories with new language are all ways that can help fix the language in your mind. Can you think of other creative ideas for language learning? With a partner, write a list of creative ways to learn English.

FUTURE SKILLS

Self-management

When you record new vocabulary, it is important to record the meaning and also extra information that will help you use the word in the future, e.g. the pronunciation.

What information do you record when you note down new vocabulary? What other information would it be useful to record?

Social & Emotional Learning for Pre-Primary Learners

Lesson 3 • Feelings
I'm excited

14

1 Listen and say. 2 How do you feel? Sing and move. 3 Choose and color. 4 Stick.

Teaching English skills

Teacher's notes:

Ss work in small groups and decide where to eat lunch/dinner. Monitor and make notes on Ss' language use for later feedback.

In the group discussion, did they...?

- Use the grammar from the unit (noun phrases)
- Use vocabulary from the unit (eating out)
-

Make a note of any errors to go through after the activity has ended.

Speaking

PREPARE

10 Work in groups. You're going to decide where to eat lunch/dinner. First, work on your own and:

- 1 think of at least two places you could suggest. Write down how you would define them and why you think they are good.
- 2 think of one or two places that you wouldn't go to if they were suggested and why.
- 3 think about the language you could use from this lesson.

SPEAK

11 Work in groups. Discuss and decide where to eat lunch/dinner. If you don't know each other, introduce yourselves first. Use the Useful phrases to help you.

Useful phrases

- What does everyone fancy?
- How/What about (a pizza)?
- Let's go to (that Turkish restaurant).
- Sounds good.
- I'd prefer somewhere else, if no one else minds.

Teaching Future skills

Teacher's Notes

In the group discussion activity, did you see evidence of:

- Active Listening (checking for understanding)
- Polite interruption
- Asking others for their opinions
- Inviting others into the discussion

I'd prefer somewhere else, if no one else minds.

A blue-tinted photograph of two women dancing in a city street. The woman on the left has curly hair and is wearing a light-colored t-shirt. The woman on the right is wearing a denim shirt and jeans. They are holding hands and smiling. The background shows parked cars and buildings.

Monitoring progress of Future Skills

The challenge of measuring soft skills

The primary roadblock is that we often have different definitions of what soft skills look like, and we usually don't share those definitions with each other inside organizations to improve clarity. Before attempting to measure soft skills, you need to establish **a shared definition of each skill**, as well as clearly delineated **behaviors that indicate when that skill has been mastered**.

Collaboration: Observation checklist

Sub-Skill		The set of strategies people use to share, negotiate, and examine claims and ideas, and to reconcile different perspectives, values, opinions, or priorities				
Engaging with Ideas	●○○○○ Emerging	●●○○○ Basic	●●●○○ Intermediate	●●●●○ Advanced	●●●●● Mastery	
<p>Learners need the capacity for verbal communication -- communicate ideas, ask and respond to questions.</p> 	Listening and Building on Ideas					
	<p>Listens without interrupting or interrupts productively.</p>	<p>Contributes ideas to the group.</p>	<p>Practices active listening in order to understand a speaker's point of view. Responds to and contributes additional / different ideas to the group conversation.</p>	<p>Extends an idea from the group conversation to work towards a shared goal. Elaborates on the ideas of others during a sustained conversation.</p>	<p>Identifies clusters of ideas shared by others in the group. Summarizes multiple ideas to synthesize into a new or improved idea.</p>	
	Engaging in Group Dialogue Around Differing Ideas or Opinions					
<p>Expresses one's own opinion. Continues to work with others when disagreements arise.</p>	<p>Recognizes when there are differences in opinions or ideas within the group. Asks others for their opinions.</p>	<p>Engages in conversations to negotiate ideas with others. Seeks alternative ideas and counterclaim from the group.</p>	<p>Respectfully engages in conversations despite significant differences in ideas, opinions, or feelings. Suggests potential areas of compromise or other strategies for resolving differences in opinions. Explores and compares alternative ideas and counterclaim from the group in order to understand different perspectives.</p>	<p>Facilitates group dialogue to make sense of alternative ideas and counterclaim. Manages disagreements / conflict within the group. Negotiates compromises or moves forward with multiple ideas to make progress towards a shared goal.</p>		
Building Consensus						
		<p>Effectively advocates for an idea (either one's own or someone else's) by supporting claims with evidence.</p>	<p>Examines the quality of a set of claims made by members of the group to inform group consensus.</p>	<p>Synthesizes ideas from across a set of claims to help reach group consensus.</p>		

Collaboration checklist

In the group discussion activity, did you see evidence of group members:

- Listening without interrupting or interrupting politely
- Contributing ideas
- Effectively expressing their own opinions
- Asking others for their opinions
- Identifying differences in opinions within the group

Critical thinking: assessment rubric

Sub-Skill Create

The ability to create or justify something using reasoning and/or evidence.

●○○○○ Emerging ●●○○○ Basic ●●●○○ Intermediate ●●●●○ Advanced ●●●●● Mastery

Composing Arguments

States a position or claim, supported by at least one relevant reason or relevant piece of evidence.	Supports opinions with multiple reasons or pieces of evidence. Explains why specific evidence supports a given point. Constructs extended arguments that appeal to specific evidence.	Composes arguments that are well supported by evidence and incorporate logical reasoning. Explains how different claims and pieces of evidence relate to one another and support an overall argument.	Seeks common evidence arguments.
--	---	---	----------------------------------

Generating Solutions (Problem Solving)

Identifies at least one relevant solution to a specific problem.	Identifies several possible solutions for a specific problem.	Uses strategies to guide solution generation processes.	Uses critical thinking to support unique ideas.
--	---	---	---

Testing Hypotheses

Identifies a hypothesis to explain observed facts or a specific phenomenon.	Identifies a prediction from a given hypothesis (e.g., the seeds planted near a light source will grow more). Proposes simple tests to determine whether a prediction is true.	Follows protocols with established procedures to gather evidence about a prediction. Determines whether experiment results do or do not support a hypothesis.	Proposes procedures to gather evidence. Controls variables. Uses hypothesis.
---	--	---	--

Sub-Skill Accumulate and Interpret

●○○○○ Emerging ●●○○○ Basic

Observes and notices inconsistencies, disagreements, problems, something that isn't working, etc. Attempts to understand the cause of inconsistencies, disagreements, problems, something that isn't working, etc.	Identifies a problem to solve. Asks basic questions that can help to understand a problem and its causes better.
--	--

Collecting Evidence

Finds at least one reason to support a given point. Identifies basic questions that can drive evidence collection. Uses strategies (e.g., searching for keywords) to collect information.	Uses evidence to find several reasons to support a given point. Develops at least one research question to guide the collection of evidence. Collects evidence using concepts or categories to organize their search.
---	---

Activity Prompt:
Research the market for a particular consumer good and use that research to propose a data-driven response addressing the impact of Covid.

Rubric:

Critical thinking

No evidence
No evidence of question and analysis of the decision process, data, information, or evidence base. Acceptance of inputs at face value. No evidence of new sources of information being sought.

Developing
Some evidence of questioning and critiquing of the decision process and inputs. Some effort put into finding new sources of inputs.

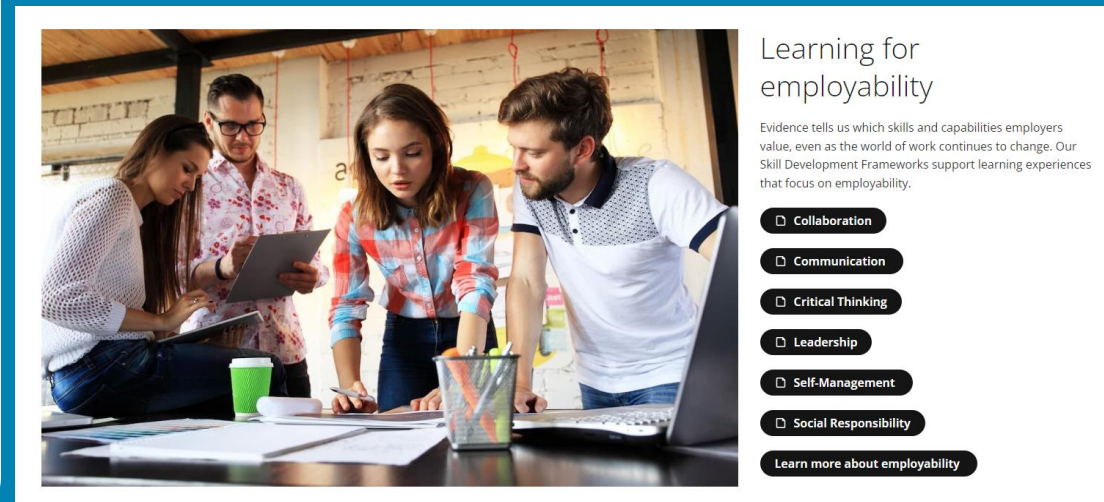

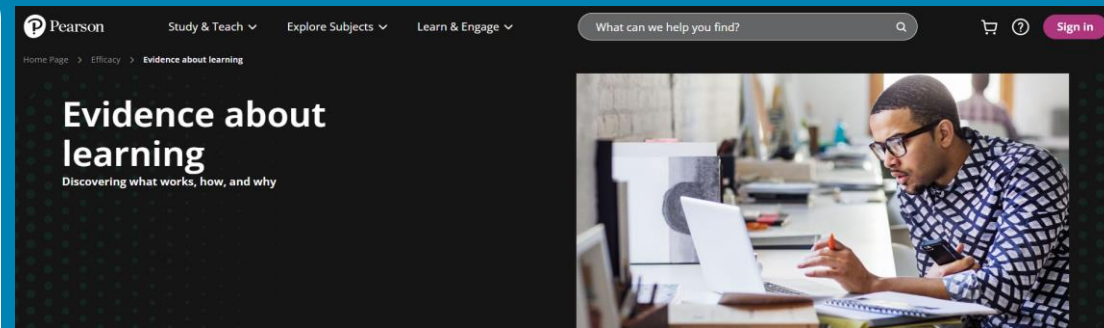

Intermediate
Well-defined questioning and critiquing moving towards new arguments and positions on the decision process and evidence base.

Advanced
Clearly defined questioning and critiquing with fully developed arguments and positions on the decision process and evidence base.

Collecting Evidence

Identifies which of multiple possible research questions is best suited to gathering relevant evidence. Develops a useful organizational structure for evidence collection (e.g., sorting by evidence type or observable characteristics).	Uses understanding of a discipline to direct and organize evidence collection. Collects information, in considerable detail and nuance, from a variety of sources. Identifies when evidence represents alternative perspectives.	Uses nuanced understanding of a discipline in order to decide when a 'collection of evidence' is sufficient. Seeks out and considers evidence that represents alternative perspectives.
